Avg Rating

Prepared by **Hathim Manaf**

Project Overview

Blinkit Sales Analysis

Leveraging **Power BI** to analyze retail sales dataset and transform raw data into actionable business insights

Primary Objective

Identify key drivers of sales performance across outlet types, sizes, locations, and product categories

Key Deliverable

Present actionable insights through an interactive dashboard enabling data-driven decision making

Data Scope

8,523 items analyzed with total sales of **\$1.20 million**

Data Preparation

Data Sources

- Item attributes (type, fat content, visibility)
- Outlet details (size, location, establishment year)
- Retail sales transaction records

Cleaning & Transformation

Key Insights - Fat Content & Item Types

Fat Content

Low Fat Items
\$776K
~65% of total sales

 Regular Items **\$425K**

 Low Fat items dominate sales performance

Top Item Categories

 Fruits & Vegetables
\$178K

 Snack Foods
\$175K

 Household
\$136K

 Breakfast
\$15K

 Seafood **\$9K**

 Focus on top 3 categories for maximum impact

Key Insights - Outlet Size & Location

Outlet Size

1

Medium Outlets

Dominates market share

\$508K

2

Small Outlets

\$445K

3

High Outlets

\$249K

Outlet Location

1

Tier 3 Locations

Highest revenue contributor

\$472K

2

Tier 2 Locations

\$393K

3

Tier 1 Locations

\$336K

Medium-sized outlets in Tier 3 locations show the highest ROI potential

Key Insights - Outlet Type & Establishment Year

Outlet Type

Supermarket Type1

Largest revenue contributor

\$787K

~65% of total

Grocery Stores

\$152K

 Supermarket Type1 drives majority of revenue

Establishment Year

2018 Outlets

Peak performance year

\$205K

 2011-2017 Outlets

Showed lower performance compared to 2018

 Replicate 2018 success factors for expansion

Business Impact

Product Strategy

- ✓ Focus on **Low Fat items**
- ✓ Expand **Fruits & Vegetables**
- ✓ Boost **Snack Foods**
- ✓ Promote **Household** products

Outlet Expansion

- 📍 Prioritize **Tier 3 locations**
- 🏪 Target **Medium-sized** outlets
- 📈 Highest **ROI potential**

Operational Strategy

- 📄 Replicate **2018 success** factors
- 📊 Analyze winning **outlet models**
- 🚀 Apply to **future expansions**

Strategic Implementation

Data-driven decisions drive **sustainable growth** and optimized resource allocation
